

RYNALDI VAREL FIRMANSYAH

JUNIOR WEB PROGRAMMER

Cikaret RT 02/04 Kel. Harapan Jaya | rynaldivarelfirmansyah@gmail.com | +62 851-7316-0845

I am currently developing my skills in web development and am committed to continuous learning to enhance my proficiency. Through dedication and hands-on practice, I am confident that I will progressively improve and contribute effectively in teamworks.

TECHNICAL SKILLS

Bootstrap
Tailwind

Hypertext Pre-Processor
JavaScript

Python

PROJECT

- **Categories Web.** The website functions to create the desired item category and can enter a description of the item. I created the website using the Laravel framework.
- **Student Data.** The website functions to enter data for each student who attends SMK Pelita Nusantara. I created the project using PHP language.

EXPERIENCE

Secretary of Software Engineering Devaccto

September 2023 - Present

- I recorded the students who were in the Software Engineering Devaccto organization at Pelita Nusantara Vocational High School
- I also teach in software engineering workshops about basic figma material

Co-Founder of Xyrohub Community

August 2024 - Present

- I took part in building an organization that was built by my own friend.
- I also participate in creating content about general IT education

EDUCATION

SMK Plus Pelita Nusantara Bogor

July 2023 - Present

Software Engineering Development

- In vocational school I entered the Software Engineering Department
- I also entered an organization called Software Engineering Devaccto while in school there.

HOBBIES

- **Creating a Front-End Web.** I really enjoy spending my time creating the look of a website.
- **Playing Badminton.** Sometimes I also like to take the time to play badminton to keep my body healthy and fit.
- **Playing Games.** If I'm bored, I usually play a game with my friends so I don't get stressed.

ACTIVITIES

- **Weekdays.** Monday - Saturday, I go to school full day at Pelita Nusantara Vocational High School.
- **Weekend.** on Sunday, i usually hang out with my friends either playing or creating content for the xyrohub community.
